

TECHNICAL DATA SHEET

| | |
|--------------|------------|
| product name | WR 2021 CO |
|--------------|------------|

COMPOSITION

- synthetic polymers emulsion

APPLICATION

- Concentrated release agent for soles with matt finishing .
- Product to be diluted 1:1 with water.

CONDITION OF USE

- Before starting any trial, the moulds has to be cleaned of any other release agent.
- To condition the moulds spray one or two coats without pouring.

HOW TO USE IT

| | |
|------------------|--------------------------|
| Spray Equipment | Airmix or airless system |
| Nozzle | 0,5 – 0.6 mm |
| Product pressure | 1,5 – 2,5 bar |
| Air pressure | 2 – 3 bars |

CHEMICAL AND PHYSICAL PROPERTIES (typical values)

| | |
|-----------------|--------------------|
| Appearance | White emulsion |
| Density at 20°C | 0,95 – 1,05 kg/ lt |
| Ph | 5-7 |

Shelf life : 12 months in original containers

KEEP AWAY FROM FREEZING
